

How to Drive: Recommended Distribution of Vehicle Tech Content

- Distributing the Vehicle Technology content throughout the curriculum, instead of only in Ch. 19
- Number in parentheses refers to the part (1 or 2) of Chapter 19 in which the tech system appears

Chapter	Segment	Technology
2- Knowing Your Vehicle	Mirror Settings and Use	Blind Spot Warning (1)
3- Vehicle Space Needs, Natural Laws, and Traction	Features and Conditions Affecting Traction	Electronic Stability Control (2)
		Traction Control (2)
4- Starting, Steering, and Stopping	Starting the Engine	Remote Start/Shutdown (2)
	Backing	Backup Cameras (2)
		Rear Cross Traffic Warning (1)
		Reverse Automatic Emergency Braking (2)
	Stopping and Securing the Vehicle	Child/Pet in Car Reminder (see also Chapter 17) (2)
5- Signs, Signals, Road Markings, and Communication	Traffic Signs	Traffic Sign Recognition (2)
7- Vision and Perception	Directing Your Search: Night Driving	Adaptive Headlights (2)
8- Time and Space	Space Margin to the Front: Following Distance	Adaptive Cruise Control (2)
	Space Margin to the Sides	Lane Departure Warning (1)
		Lane Keeping Assistance/ Lane Centering (2)
9- Changing Lanes, Turning, and Parking	Turning Left	Left Turn Crash Avoidance (2)
	Parallel Parking	Parking Assist- Semi-automated (1)
		Parking Assist- Fully-automated (1)
10- Sharing the Road	Motorcycle, Moped, and Scooter Riders	Forward Collision Warning and Object Detection (1)
		Forward Automatic Emergency Braking (2)
14- Distracted Driving	Distractions Inside the Vehicle	Navigation Systems (2)
15- Drowsy Driving, Sleep, and Emotions	Drowsy Driving: Maintaining Alertness	Driver Monitoring: Alertness (2)
16- Driving Conditions and Environments	Snow and Icy Conditions	Outside Temperature Warning (2)
	Low-Light and Nighttime Conditions	Night Vision (2)
17- Emergency Situations	Evasive Steering	Automatic Emergency Steering (2)
	Minimizing Crash Consequences	Automatic Crash Notification (2)
		Self-Healing Paint (2)
	Children and Pets Left in Vehicle	Child/Pet in Car Reminder (see also Chapter 4) (2)
18- Fuel-Efficient Driving and Tire Safety	Tire Safety: Proper Inflation	Tire Pressure Monitoring System (TPMS) (2)
19- Vehicle Safety Technologies and Self-Driving Vehicles	Automated Driving Tasks	Dynamic Driving Assistance (2)
